Monthly newsletter for members

Dear Network,

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum.

Enjoy the reading.

News from the Secretariat

CAN Europe has welcomed four new staff members to the team.

We are happy to introduce them here.

Nina Tramuller is our new Gas Communications Coordinator.

Brigitte Bozzo is our new Climate Policy Coordinator.

Sven Harmeling is our new Climate Policy Coordinator.

Samuel Martín-Bosa is our new Network Development Coordinator.

News from the Network

Member spotlight: Title of article

Contrary to popular belief, Lorem Ipsum is not simply random text. It has roots in a piece of classical Latin literature from 45 BC, making it over 2000 years old. Richard McClintock, a Latin professor at Hampden-Sydney College in Virginia, looked up one of the more obscure Latin words, consectetur, from a Lorem Ipsum passage, and going through the cites of the word in classical literature, discovered the undoubtable source. Lorem Ipsum comes from sections 1.10.32 and 1.10.33 of "de Finibus Bonorum et Malorum" (The Extremes of Good and Evil) by Cicero, written in 45 BC. This book is a treatise on the theory of ethics, very popular during the Renaissance. The first line of Lorem Ipsum, "Lorem ipsum dolor sit amet.", comes from a line in section 1.10.32.

Policy updates

NGOs call on the EU Environment Ministers to improve Recovery and Resilience Plans to accelerate ecological transition

Ahead of tomorrow's Environment Council's exchange of views on draft Recovery and Resilience Plans, Europe's biggest civil society networks sent a joint letter to Ministers to urge them to change course, and to improve draft Recovery and Resilience Plans in order to accelerate EU's transition towards climate neutrality and ecological sustainability.

The letter signed by Climate Action Network (CAN) Europe, European Environmental Bureau (EEB), CEE Bankwatch Network, BirdLife Europe, EuroNatur, Greenpeace, and Greenpeace European Office reminds Member States that current version of Recovery and Resilience Plans fail to deliver on their promises to tackle the climate crisis, protect and restore nature and to build a truly circular economy.

It calls upon the Member States to radically improve these Plans before submitting them to the European Commission by the end of April. Member States should allocate at least 40% of all investments to climate action and nature protection, ensure structural green policy reforms, exclude environmentally damaging projects and false solutions such as fossil gas or hydropower from plans, and improve transparency and public participation.

New guidelines for Flash articles

Maximum 1 article per sub-team

Please have minimum 1 article per bigger team (climate, energy, horizontal)

If you wrote a blog post or press release, you can write 2 introduction sentences and we then add the link to the website (read more)

An article cannot be longer than 250 words

Add a summary / introduction of max. 2 sentences

Candidate projects for the 5th PCI list: a final push for fossil gas?

In January 2021, the European Commission published a list of candidate projects for the 5th list of Projects of Common Interest, or PCIs. PCIs are cross-border energy infrastructure projects which receive the highest political support at EU level: faster permitting procedures, streamlined environmental impact assessments and eligibility for a dedicated line of EU funding (the Connecting Europe Facility, or CEF).

74 fossil gas infrastructure projects have applied and are eager to receive the PCI label. None of them should be selected, for a variety of reasons.

Title of article

It is a long established fact that a reader will be distracted by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more-or-less normal distribution of letters, as opposed to using 'Content here, content here', making it look like readable English. Many desktop publishing packages and web page editors now use Lorem Ipsum as their default model text, and a search for 'lorem ipsum' will uncover many web sites still in their infancy. Various versions have evolved over the years, sometimes by accident, sometimes on purpose (injected humour and the like).
