

# What is wrong with the 5th PCI list candidate projects?

**FOOD &  
WATER  
ACTION  
EUROPE**

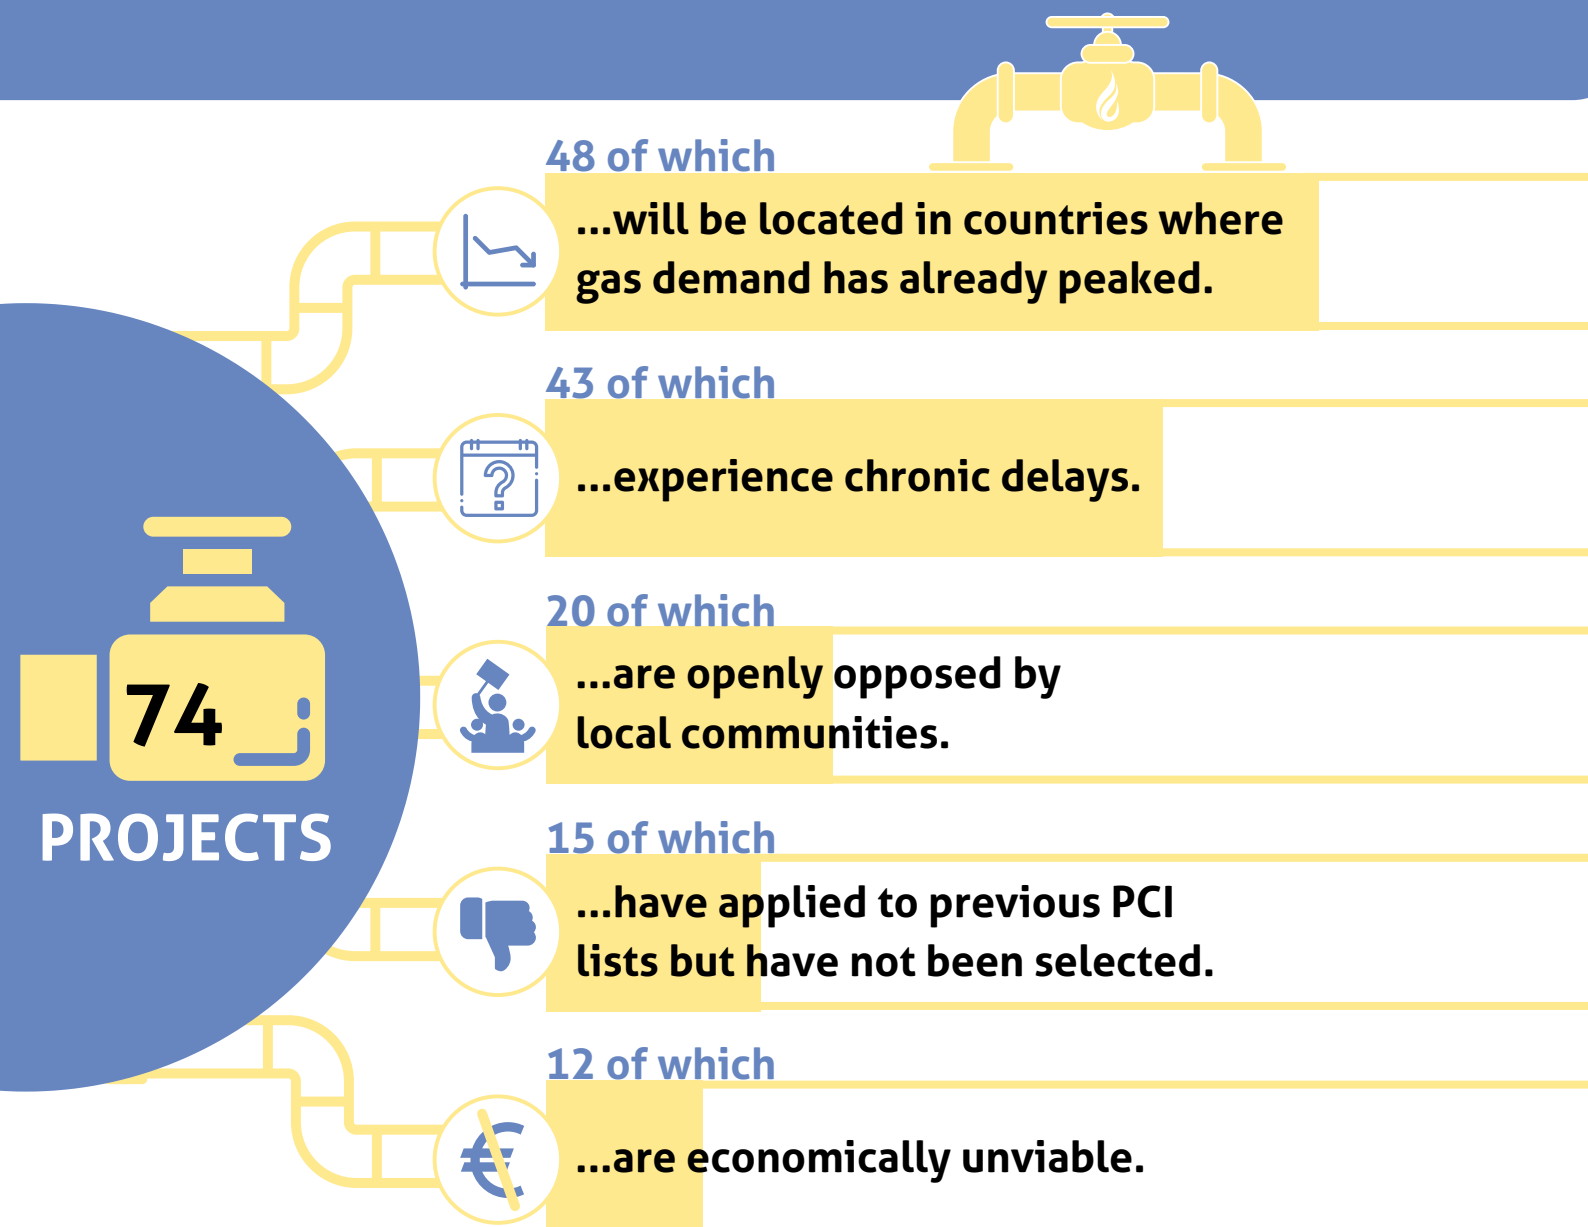

There are 74 fossil gas projects among the candidates for the 5th PCI list.

**NONE of them should be selected**

## WHY?

As all of them represent additional fossil gas infrastructure on top of the existing dense and costly EU gas grid, they are incompatible with EU's climate goals. On top of that, these specific candidate fossil gas projects should not be included in the 5th PCI list for at least one of the following reasons:
